CHARLEROI S. AND L. ASSN. ADOPTS PROFIT-SHARING PLAN

First Bank In Valley to Set Aside Funds For Benefit Of Employes

OLD OFFICERS ARE RE-ELECTED

The annual meeting of the stockholders of the Charleroi Savings and Trust Company was held at the banking rooms of the institution on Tuesday, January 11, at which time the reports of officers and election of directors for the ensuing year took place. The meeting was well attended and most harmonious and felicitations on the prosperous condition of the bank, as well as the prospects for the future were given by Hon. J. K. Tener, C. R. Peregrine, Tom P. Sloan and Dr. M. McCloskey.

The old board of directors, consisting of Nathan Greenberg, E. W. Hastings, D. M. McCloskey, John H. Moffitt, R. C. Mountser, C. R. Peregrine, H. J. Renman, Tom P. Sloan, W. C. Sutherland, James M. Walton and H. S. Piersol, were unanimously re-elected. At the conclusion of the stockholders' meeting the newly elected directors met and re-elected the old officers, as follows:

President—James M. Walton

First Vice President—D. M. McCloskey.

Second Vice President—R. C. Mountser.

Secretary and Treasurer—E. W. Hastings.

Assistant Secretary—S. Walton Sharpnack.

Assistant Treasurer—E. J. Charles.

The reports made by the officers to the stockholders show the bank to be in the most prosperous condition. During the year the footings of the institutions increased over $800,000 while during the same period the depsiits increased over $800,000 during the same period the deposits increased almost the same amount. At the close of business December 31, 1919, the report showed deposits of $1,279,988.34, and total footings of $1,533,979.20. At the close of business December 31, 1920, the deposits had increased to $2,068,585.58, or an increase of $788,597.24, while the footings showed a total of $2,336,878.74, or an increase of $802,899.54. In addition the board of directors carried $25,000 to the surplus fund out of the earnings of the past year, increasing that total to $100,000.

The board of directors also took the initiative in adopting what is known as the profit-sharing plan, being the first banking institution in the valley, it is believed, to put such a system into effect. By the terms of this plan a certain percentage of the profits are set aside each year, to be divided among the employes of the bank, according to the salary received and the length of service. This plan was first adopted by the Chemical National Bank of New York and has been followed by other large city banking institutions with good results. While this is a new departure for banks in Washington county and the Monongahela valley, it is believed that it will be equally successful here, rewarding as it does the faithful services of tried and trusted employes who give their best efforts to the institution of which they are an important factor.

The largely increased business of the Trust Company for the past year is also an indication of the increased confidence in which it is held by the people of the community, who during the past year have availed themselves to a greater extent than ever of its facilities both as a trust company and as a banking institution. The management is to be congratulated, as well as the directors and stockholders, on the splendid showing made by this institution.

CHARLEROI BOY IN "ALWAYS AUDACIOUS" AT COYLE

Mat Perry, a Charleroi boy, who went to Los Angeles about three months ago for the purpose of taking up moving picture work, appears in the film, "Always Audacious," starring Wallace Reid, and which is on today at the Coyle Theatre. Before going west Perry was employed at the Allenport plant of the Pittsburg Steel Products company. His friends will no doubt be pleased to see him in this splendid picture in which Reid has made such a hit.

CHARLEROI WINS OVER DUQUESNE

Charleroi's basket ball tossers registered their second consecutive victory in the scholastic league race, when they defeated Duquesne at the high school gymnasium, last evening. The game was witnessed by the largest crowd which has attended a basket ball exhibition in Charleroi for along while, and quite a sprinkling of the spectators accompanied the players from Duquesne The game was fast throughout. Referee Lippert keeping the boys constantly on the move. Coach Stahlman started the game with a little change in his line-up. Wagner and Lee were placed at the forward position, Hazelbaker at center, and Brown and Weaver, guards. This combination did not work satisfactorily to the team's mentor, although it led Duquesne at the end of the first quarter, by a score of 9 to 6, due chiefly to the spectacular work of Wagner. For the second quarter, Daniel replaced Lee, and contributed materially to the ultimate victory by caging a brace of pretty field goals, one in the second, and other in the early part of the third quarter. Brown, Weaver and Wagner were very much in evidence, by their splendid work. The score, at the end of the half, showed Charleroi still leading, by 18 to 9. The beginning of the second half found Weaver at center, and "Peck" Webster at guard. The going about this time was good and fast, but the diminuative

TAXI—Anywhere any time. Call Vetter, 424. 179eod

THOMAS L. DALY

Thomas L. Daly, for over sixty-three years a prominent resident of the Monongahela valley, died at his home, Orchard Hill, Lock No. 4, Tuesday, January 11, at 4 o'clock, p. m., in the 82nd year of his age.

Mr. Daly was born in Philadelphia Pa., September 19, 1839, the son of Thomas and Mary Daly, who had come to America from Dublin, Ireland and settled in that city. His education was received in the public schools near Wilmington, Del., and in Philadelphia. In the spring of 1856 he went to Indianapolis, where he remained a year, then came east to Gibsonton, where he helped his father in the construction of the Gibsonton mills.

He was married September 19, 1860 to Carrie W. Wilson and to this union five children were born, three of whom, Mrs. Athalia Daly McKean, at home, Dr. Harry C. Daly of Gibsonton, and Kerfoot W. Daly of Charleroi, survive. His wife, Carrie W. Daly, died October 18, 1920.

Mr. Daly was a member of St. Mary's Episcopal church of Charleroi and was a member of the vestry since its organization, having previously been a member of Trinity Church of Pittsburg.

He was a member of Charleroi Lodge No. 615, F. & A. M., Monongahela Chapter No. 249, R. A. M., McKean Commandery No. 80, K. T., a life member of the Pittsburg Consistory and the Masonic Veteran Association of Pittsburg.

He was one of the organizers of the Bank of Charleroi in 1898, and its President from the date of its formation until the day of his death.

He moved from his home in Gibsonton to Lock Four, to a new home known as "Orchard Hill," and where he continued to reside until his death. Mr. Daly took a lively interest in the affairs of his home community, and was of a most charitable disposition.

Funeral services will be held Thursday January 13, at 8 o'clock, p. m., interment private in Monongahela cemetery, Friday afternoon.

Details For Civic Dinner Have All Been Completed

All details of the arrangements for the great civic dinner which will be given tomorrow evening in the Elks' Club were completed today. The service of the dinner will commence at 7 o'clock and will be in the handsome ballroom of the club house.

Through the cooperation of the house committee of the club of which C. S. Bateman is chairman, and the arrangements committee of the Chamber of Commerce expansion movement, consisting of H. L. Swickey and D. R. Hormell, the regular dinner-hour patrons of the club will be served at the same time and place as the civic dinner guests.

The attendance of women at the civic dinner is going to be large. Nearly all of the men who have made reservations are asking for two or more places. In this respect the dinner promises to be one of the most brilliant affairs of the winter in Charleroi.

Dr. George W. Shelton of Pittsburg, who is to be the chief speaker will talk about "Building Cities For Folks to Live In," and it is expected he will call on one or more Charleroi men for brief remarks.

Prof. I. T. Daniel, who had such marked success in leading the singing by the men at the smoker last Thursday evening, will be in charge of the music tomorrow evening, Miss Bethel Bowman will be the pianist. It is promised that the musical section of the program will be interested and of the highest class, for it will include a solo by Miss Ethel Barth, a Charleroi favorite.

Though the dinner is an event in connection with the expension of the Chamber of Commerce, there will be no enrollment of memberships. It is expected, however that announcements of substantial support for the new organization by some of the larger concerns of the Charleroi community will be made.

FIRST NATIONAL BANK MAKES GREAT INCREASE DURING YEAR

Deposits Increase Over One Million Dollars Over Previous Figures

OLD OFFICERS ARE RE-ELECTED

Reports of the most encouraging character were made to the stockholders of the First National Bank of Charleroi, at the annual meeting held in the banking rooms of the institution on Tuesday afternoon. Figures presented by R. H. Rush, the cashier, showed that the bank during the year had entered the three-million class, and that increase in total footings and deposits were in excess of one million dollars of 1919, or an increase over the year previous of at least fifty per cent.

There was no change of any kind in the management of the institution the old board of directors, consisting of Hon. John K. Tener, S. A. Walton, George S. Might, C. G. Mogan, J. E. Masters, W. B. Prieghardt, Eugene Fau, D. M. McCloskey and R. H. Rush being re-elected. The board immediately organized by the election of the following officers:

President—John K. Tener.

First Vice President—S. A. Walton.

Second Vice President—George S. Might.

Third Vice President—D. M. McCloskey.

Cashier—R. H. Rush.

All of the old employes were also re-elected and the institution now moves into the new year with every confidence of even greater success than in the past.

A comparison of totals for the years 1919 and 1920 shows how rapidly the bank has advanced in public confidence. At the close of business December 31, 1919, the total footings of the bank were $2,199,802.80 and the deposits $1,817,042.11. At the close of business December 31, 1920 the total footings were $3,241,064.84 and the deposits $2,864,269.57, showing an increase in footings of $1,141,262.04 and in deposits of $1,047,227.46.

During the year the bank will transform the Hotel Wilbur building into the finest banking room in the valley, and with new and more modern facilities will undoubtedly make greater progress in 1921 than ever before.

EVANGELISTIC SERVICES.

Evangelistic services will be held each night at 7:30 p. m.

The Speaker—Elder John D. Carlisle of New Philadelphia, Ohio.

Come and hear the gospel of the true and living God preached in its purity and fullness.

Everybody is hereby invited and will be welcome.

The Womens Community Club of Lock No. 4 will meet at the home of Mrs. J. M. Whitlatch on Pennsylvania avenue, Friday evening, January 14. All members and friends are urged to attend as new work is to be taken up. 185t1

Out in Indiana, according to the Fort Wayne News, "a string of vehicles loaded with apples a quarter of a mile long at a cider mill is a common sight." Which—the apples or the string?

MONESSEN FIRE CAUSES TWO DEATHS

Andrew Truas, aged 32, is dead, and his wife, Susie, aged 30, will die, as the result of a fire in their home at 1141 Maple avenue, Monessen this morning. Mrs. Trusa had arisen to get breakfast and in order to hurry on the coal fire, poured kerosene on it. An explosion ollowed and her clothing ignited. She ran into the bedroom where the husband and four children were. The husband picked up the bed clothing and wrapped his wife in them, but these caught fire and resulted in both being badly burned. The fire company was called and rescued the family, and extinguished the fire. The father died this forenoon at the Memorial hospital, Monongahela, and the authorities said his wife, who is in the same institution, would follow him in a few hours. One of the children, a four-year-old girl, was slightly burned.

A FINE THING FOR LOCAL COMMUNITY

Former Governor John K. Tener was one of the callers at the headquarters of the expansion movement of the Chamber of Commerce yesterday afternoon. His attention had been called to the plans for the new civic-commercial organization by R. H. Rush and the former executive expressed a wish to know more of the details.

At the headquarters he asked a number of questions as to the scope of the plans, his interest being especially in the ability of the new association to lead the people of the community along those lines which make for the building of great cities.

"If the Chamber of Commerce can be successful in leading the Charleroi community in a program of definite, worth-while things to be done, and can show the people how to do those things, or get them done, it will be a fine thing," said the governor in wishing the movement the fullest success.

A DESERVED REBUFF.

Berlin is reported to be very indignant because the American Ambassador to France recently refused to permit Germany's representative to be introduced to him at an official reception in Paris. The rebuff received by the German Ambassador was the more pointed and embarrassing because of his own officiousness and precipitation. When he asked for an introduction he followed and stood within hearing distance as the American Ambassador was approached on the subject, evidently intending thus to make refusal impossible. Greatly annoyed, Ambasador Wallace said, after a moment's resitation: "Tell him I refuse to meet him." Thereupon the determined German Ambassador was covered with confusion of his own making, and as soon as the story reached Berlin that city affected to boil with indignation.

Yet both the rebuffed diplomat and the informed among his countrymen know that ambassadors whose countries are at war are forbidden by diplomatic etiquette to "meet" socially. They also know that the United States and Germany are still technically at war. The act of the German Ambassador and the outcry in Berlin merely serves to reveal once more the characteristic inability of the Germans to realize even in small measure the enormity of their crime in plunging the world into the most terrible of all wars merely in order to gratify their lust of conquest. They appear to think that if in their own interests they can appear to forgive their conquerors, their conquerors ought to be only too glad to forgive and forget also. The innumerable woes which they have inflicted upon the world are as nothing in their sight, their philosophy suggesting that of the chained tiger that submits to restraint merely because he must.

The Bolsheviki have abolished money but are likely to find the abolition of hunger a more serious matter. To legislate envy and covetousness out of existence will give them some trouble, too.

The Germans have restored one carload of the books they stole from the Louvain library, after contracting (under pressure) to make such restoration once a month.

A New York judge has urged a vigilance committee of citizens to cope with the crime wave. The next thing will be talk of lynching crooks on sight.

D'Annunzio's foot heroics came to an inglorious end when he escaped from Fiume in an airplane and left his deluded followers with the bag to hold.

Congress is not alone in worrying over the question of revenues to meet expenses. The habit is rather prevalent.

How to vaccinate under cover in spite of bare arms and transparent silk stockings must be a pretty serious problem.

GET DRINK FROM FLOWERS

Natives of India Distill Valuable Spirit From Mowra Tree—Seeds Also Yield Oil.

[illegible] to India, are [illegible] for food. They are rich in sugar and are [illegible] in factories from them. A syrup prepared from them is [illegible] during the sugar season to date sugar.

In the native provinces of India mowra flowers are regularly used as a source of food by all [illegible] people, each person consuming about [illegible] pounds per annum. Towards the end of that country they are looked upon as a valuable resource in famine years. [illegible] they are gathered when they have fallen and are spread out to dry on mats in the sun. A single tree will yield [illegible] pounds of flowers in a year. They are eaten either fresh or dried, and cooked in many different ways with rice, shredded coconut or ghee.

The bulk of the crop of flowers, however, is used for the preparation of [illegible] or native spirit. They are fermented, sometimes with molasses added, and the liquor is then distilled in crude apparatus. With good distilling apparatus, 100 pounds of the flowers will yield five and one-half gallons of proof spirit.

It is estimated that in the Hyderabad state alone there are enough mowra trees to produce [illegible] gallons of proof spirit per annum. The seeds yield an oil which is largely utilized in the manufacture of soap, candles and imitation butter.

WHERE KING ARTHUR LANDED

Tintagel, on the North Coast of Cornwall, Figures in Tennyson's Famous Poem.

Everyone who has read the legends of King Arthur, or who has conned Tennyson's "Idylls of the King," wishes to see Tintagel, that place in the north coast of Cornwall so deeply implicated in the Arthurian legend. The legend of Tintagel is that Arthur came ashore from the sea in storm and danger, a story excellently well suited to the Cornish love of marvels.

The place generally known to tourists in Cornwall as Tintagel is in fact the village of Trevena, and Tintagel itself is the ruined castle and headland, solitary, beyond it and beyond the wind-swept church where the gray-green lichens grow long on the granite.

The headland of Tintagel, dark and craggy and almost wholly separated from the mainland, is said to take its name from "Dun-dagel," the "safe fortress;" famous from earliest times as a place for retreat and defense. On all such rock fastnesses the primitive peoples who inhabited their coast-line created what are known as "cliff-castles." You see this remarkable place best from its eastern side, and from the sands below the slaty cliffs. From this point of view the great gloomy cavern eaten out by the sea in the headland, some day completely to surround it, can be clearly seen.—Christian Science Monitor.

Speaking and Listening.

A great deal has been written on the art of speaking; but a treatise on the art of listening would be more valuable. There are plenty of good talkers in society, but good hearers are rare. Carlyle's discourses, preached in so many volumes, with sad earnestness, on the text "Silence Is Golden," have borne thus far but little fruit. A Frenchman once said of a gentleman in company, in whom he could detect no other quality worthy of a compliment, that he had a great talent for [illegible] the most opportune was a very [illegible] of all gifts one of the most [illegible] the self-control [illegible] to hold his tongue. [illegible] selected how different [illegible] attention [illegible] compliment [illegible] Mail.

Remember your dead. W. S. Cook and Co. Monuments with Lawrence Frye Funeral Director. 20Stf

Gas From Straw.

A [illegible] the interesting [illegible] being developed [illegible] the experimental [illegible] the United States Department of [illegible] Arlington, Va., says [illegible] for [illegible] light [illegible] recent article.

[illegible] has been used for motor [illegible] and illuminating purposes, but its commercial value has not yet been determined. The office of development work of the bureau of chemistry is now making a series of tests upon it.

Fifty pounds of straw will produce about 200 cubic feet of gas, and the problem of liquefying or condensing the gas in order to enable it to be used practically as a motor fuel is now in progress of solution.

Several valuable by-products are obtained during the manufacture of the gas.

He will see you soon

YES, THANK YOU, THE FRANKLIN AUTOMOBILE BUSINESS IS GOOD!

Our organization is singularly free from gloom—we are up and doing, every day, and we are BUSY.

Yet, from nearly every quarter comes the cry, "What's the matter with the automobile business?"

Our own Franklin business is not a marked exception to the Franklin sale throughout the country. Where other automobiles have slumped, the Franklin sale has been steady and satisfactory.

Why has the Franklin sale, under such circumstances, become so conspicuously large? What's the answer?

There are two big reasons: First, Franklin superiority in comfort, economy and endurance. Second, the inborn desire of every red-blooded human being to pick a winner.

For the Franklin car is a winner—make no mistake on that point. No other car at any price compares.

What other car yields 20 miles to the gallon of gasoline and 22,500 miles to the set of tires? None. What other car shows such a small yearly rate of depreciation? None.

When money is "right"—when the motor-buying public is unusually cautious, does not this remarkable tribute to a remarkable car plainly indicate that the Franklin is the car for you?

We shall be glad to arrange for a demonstration.

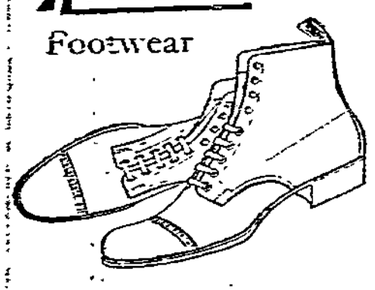
Nettleton

Footwear



"The Composite"

Blucher Style of Long-Wearing Glazed Kid.

The Composite is a practical, scientifically built shoe that meets the exact requirements of thousands of men. Being cut two sizes under thru heel and instep it affords a remarkable degree of comfort to the wearer.

The Nettleton Composite is a shoe men adopt permanently—it is always "in eason."

APPROXIMATE LIFE OF PITTSBURGH COAL

The bituminous coal in the Pittsburg bed will be exhausted in approximately eighty years, and in the Greensburg and Uniontown basins in about twenty-five years, according to Dr. George H. Ashley, State Geologist in the Pennsylvania Department of Internal Affairs, in a statement issued last week.

Continuing Dr. Ashley said that although it may be safely estimated that all of the coal in Pennsylvania will not be mined for several hundred years, one hundred years will see the end of all the thick cheaply mined coal in the state.

Much of the coal remaining in Pennsylvania today is in relatively thin beds, many of which are too thin for to be considered minable at this time. Mining in Pennsylvania today is mainly of the thick coals of the state. Thus of 170 million tons of bituminous coal mined annually in recent years in Pennsylvania about one hundred million tons comes from the Pittsburg bed, which is from five to nine feet thick. Careful estimates by Dr. Ashley show that there remains about eight billion tons of recoverable coal in the Pittsburg bed, which at the rate of one hundred million tons of coal per year would last eighty years assuming a recovery of 90 per cent.

SUMMIT HOTEL MAY CHANGE OWNERSHIP

Negotiations for the purchase of the Summit Hotel, east of Uniontown, have been opened by the Hoffman company, headed by Lee F. Hoffman of Bedford who, with M. S. Enfield, also of that place, was in Uniontown during the past week investigating the possibilities of the mountain-top hostelry.

The Hoffman company operates hotels at Bedford, Ligonier and Gettysburg, while they have plans for the erection of hotels at State College and Hollidaysburg. By next June the Hoffman company plans to operate a chain of hotels along the Lincoln and National highways. In order to obtain an option on the Summit hotel, the Hoffman company outbud several prospective owners.

The ultimate purchase of the hotel will depend upon the outcome of the investigations now under way by Mr. Hoffman, who expects to return to Uniontown this week. Local and tourists' patronage will be the deciding factor in the deal.

A Financial Wreck.

Muddle on forehead and the room like a man reeling under the effects of some terrible mental blow. His wife looked at him aghast. "What is it?" she asked in trembling accents. "It was not my fault," he murmured incoherently. "We are penniless." "Penniless" she repeated in a half-dazed way. "Oh, tell me, have you been speculating on that dreadful stock exchange? Tell me you have done nothing to tarnish your honor." "Nothing—nothing!" he replied. "Oh, thank goodness for that!" she cried. "Now I can brave anything. Where has your money gone?" The wretched man placed his arm around her and gasped out: "I have paid the gas bill."

Getting Action.

A doctor received a note asking him to go at once to a case of smallpox, but to his surprise, on arriving at the patient's bedside he found that it was merely a case of rheumatism.

"But this is very plainly not smallpox," he said.

"Well, doctor," replied the man, as he shuffled one foot over the other, "to tell you the truth, we knew it was rheumatism, but nobody in the house could catch the cash, and we thought smallpox would go fast as we could get a doctor and probably bring our money."

To see a moon in brilliant clearness—for a wife, love and good health; for a husband increase in wealth. To see the new moon means advancement in business. To see two moons means an increase in dignity and rank. For a beautiful woman to see in a dream the moon at its full predicts to her a high standing in fashion and in public admiration. For a young girl or widow to see the moon in full and its face of a dazzling brightness denotes a speedy marriage. To jewelers, goldsmiths and bankers this vision is most lucky.—Chicago American.

Mrs. Frank Ganiear of Waynesburg is visiting at the home of her mother Mrs. Racheal Ganiear of Fallowfield avenue.

CHARLEROI WINS

Continued from page 1.

"Peck" slid one over, being his first basket of the year, an occurrence which greatly pleased him and his many admirers. The usually reliable Wagner weakened somewhat in his foul shooting in the second period but, otherwise, put up a sterling exhibition, being ably abetted by his teammates, notably Brown. Weaver worked like a Trojan throughout the game. Stephen took Daniel's place, towards the close of the third quarter, the locals being in the lead by a safe margin—26 to 17. Gray entered the line-up in the fourth quarter, taking Webster's place, and Lee returned to the game, replacing Stephens. Charleroi increased her lead by five points, in the concluding period, while Duquesne managed to garner but one point. A few minutes before the close of play, Webster returned to the floor in place of Gray. When the final whistle blew, the figures showed the locals an easy winner by twelve points.

Duquesne put up a game exhibition, but they were unable to accustom a satisfactory intimacy with the basket, on account of the practically impenetrable defence of the locals. They themselves displayed a splendid defence, and clung to it tenaciously, but Charleroi was able to outguess them sufficiently to ensure victory.

Referee Lippert proved himself a splendid official, by his effective work. The summary:

Charleroi—30		Duquesne—18
Lee	F	Miegen
Wagner	F	Brings
Hazelbaker	C	Rumble
Weaver	G	Murphy
Brown	G	Maurer

Substitutions: Charleroi—Daniel for Lee, Stephens for Daniel, Lee for Stephens, Weaver for Hazelbaker, Webster for Weaver, Gray for Webster, Webster for Gray, Prosgnick for Murphy, Murphy for Prosgnick. Field goals—Wagner 5, Daniel 2, Webster; Miegen 2, Brings 2. Foul goals—Wagner, 14 out of 27; Brings, 9 out of 18; Maurer 1 out of 5. Referee—Lippert. Scorers—Miller and Hawbecker. Timekeeper—Daniel.

COUNTY ASKS THAT CASE BE DISMISSED

A question of law is raised by the county commissioners in an affidavit of defense filed in the suit of H. C. Rawel against the County of Washington and the commissioners, asking judgment be entered in favor of the defendant. This is a suit to recover sheep damage claims amounting to $118, payment of which was approved by the township auditor and the county commissioners, but refused by the county controller.

The commissioners take the position that although the claim was according to law, the plaintiff should have brought mandamus proceedings against the controller to compel him to sign the voucher instead of an action in assumpsit against the county and they ask for judgment in favor of the county. It is a question of law and will be decided by court.

BADLY INJURED IN AUTO WRECK

While demonstrating an Ace touring car this morning, on the road between Webster and Monessen, C. T. Glickert of 629 Penney avenue, McKeesport, met with an accident, the car plunging over the embankment on to the railroad track, and Glickert sustaining a fracture of the leg and arm as well as internal injuries.

Glickert with a passenger was on the way from Donora to Monessen at the time. A short distance below the Henderson coal tipple, in attempting to pass another car, he struck a small stone which was covered with snow. His car skidded and ran into the guard rail, tearing down about twenty feet of it, and plunged head on into a freight car on the Lake Erie road. The car was smashed, Glickert injured, but the passenger escaped.

A freight train passing at the time was stopped and Glickert brought into Monessen, later being taken to the Memorial hospital at Monongahela.

FOR SALE—6 rooms and 2 baths, ideal location on Washington avenue. Only 7 minutes walk to business section. A real bargain. Clyde B. Cope 315 McKean avenue. 177tf

Has Swinging Wringer and Other Worthwhile Features

If any electric washing machine feature is worthwhile, the Gainaday has it. The efficiency of washing clothes spotlessly clean in the revolving, reversing Gainaday cylinder is undisputed. Too much evidence points that way—almost a hundred Gainaday owners right here in Charleroi and vicinity is your safeguard. Of great importance, too, is the powerful wringer which wrings the clothes from washer to rinse water to blue water and into the basket, all without moving the machine.

BENJAMIN FRANKLIN, PRINTER

The observance of Franklin's birthday, January 17, is very typical of the man.

He crammed some useful work into every minute of his active life. His birthday is celebrated not with closed shops, but with all the activities of a busy day.

His life and teachings point the way to success through thrift of time and resources. All over the U. S. on Jan. 17, people now observe National Thrift Day.

The world gave him many titles, statesman, philosopher, scientist, inventor, teacher. He chose the most modest of all, printer.

Like Franklin, this Institution leads the way to success and prosperity through thrift of time and money.
